EDUCATION

Advanced College Of Engineering and Management

Bachelor in Computer Engineering

📅 2021-Continue... 📍 Kalanki-14-Kathmandu

Kathmandu Model Sec. School

High School

📅 2018-2020 📍 Balkumari-12-Lalitpur

PROJECTS

News Recommendation and Summarizer (Minor Project)

- Created an algorithm that suggests news based on what a person likes and has been looking at online.
- Made short descriptions of articles by using artificial intelligence and other technologies related to understanding human language.
- What was done: Python, NLP libraries, Machine Learning frameworks

Public Transport System Management

- Helped write down what the software for making sure buses and trains run on time should do. (Software Requirements Specification)
- Found out what people who own or use buses think about them also went out into the world to see how different places deal with this problem otherwise known as market research.
- Helped decide where buttons should go on the computer screen and what they should look like. (UI design) After that, asked some people if they liked it or not so much and why?

EXPERIENCE

Frontend Designer [Website design (Portfolios etc.)]

- Designed and implemented user-friendly interfaces for websites and applications.
- Collaborated with cross-functional teams to translate design concepts into functional products.
- Improved user engagement and satisfaction through visually compelling and intuitive designs.
- Technologies used: HTML5, CSS, JavaScript, Adobe Photoshop
- Portfolio: <https://github.com/raaichu121>

ADDITIONAL
